Private Group 2 months ago

This group is for current and former government Chief Information Officers (CIOs) or other executives responsible for technology in government organizations. Government technology executives from city, county, state, province, national and international governments share information and resources related to blockchain technology. This group includes a social media and communications platform that facilitates communications among government technology executives.

If you are a government executive and not a GBA member, please visit our membership page at: <https://gbaglobal.org/membership>
